

Hannibal Clinic: The Best in Lung Cancer Screening

Hannibal Clinic has been designated a Lung Cancer Screening Center by the American College of Radiology (ACR). Hannibal Clinic is the only facility within a 50 mile radius of Hannibal to be awarded this prestigious designation.

The ACR Lung Cancer Screening Center designation is a voluntary program that recognizes facilities that have committed to practice safe, effective diagnostic care for individuals at the highest risk for lung cancer.

In order to receive this elite distinction, facilities must be accredited by the ACR in computed tomography in the chest module, as well as undergo a rigorous assessment of its lung cancer screening protocol and infrastructure. Also required are procedures in place for follow-up patient care, such as counseling and smoking cessation programs.

Lung cancer screening with low-dose computed tomography scans, and appropriate follow-up care, significantly reduces lung cancer deaths. In December 2013, the United States Preventive Services Task Force recommended screening of adults aged 55 to 80 years who have a 30 pack-year smoking history and currently smoke or have quit within the past 15 years. Lung cancer is the nation's leading cancer killer – taking the lives of more people each year than breast, colon and prostate cancers combined.

The ACR, founded in 1924, is one of the largest and most influential medical associations in the United States. The ACR devotes its resources to making imaging and radiation therapy safe, effective and accessible to those who need it. Its 36,000 members include radiologists, radiation oncologists, medical physicists, interventional radiologists and nuclear medicine physicians.

Hannibal Clinic features a full service lab, radiology department and offers extended hours through the Ambulatory Care Center. Presently, Hannibal Clinic has locations in Hannibal, Palmyra, Monroe City, Center, and Bowling Green with 50 providers on staff in more than 20 different medical specialties. In providing medical care to the region, Hannibal Clinic also employs over 300 people.
